WEBINAR LOGISTICS

Evaluation

We appreciate your feedback on the knowledge you gained from the session and suggestions for future topics.

- **Pop-up** after the Webinar with link to survey
- **Email** follow-up in a day with survey link

Recording

A recorded version of this webinar will be available on EAPO and CNPEA's websites.

Links and documents shared during the webinar will also be posted.

Respecting Privacy and Confidentiality

We appreciate there may be personal circumstances or issues which participants may wish to address. However, in keeping with our commitment to maintaining your privacy and confidentiality, today we will be answering general questions posed through the Q&A.

If someone wishes to discuss specific circumstances, we invite you to contact EAPO following this webinar to arrange for a confidential conversation so that we may further assist you.

Elder Abuse
Prevention
Ontario

STOP ABUSE – RESTORE
SIMPLY PUT, WE ALL HAVE A ROLE TO PLAY
RESPECT

Vision

EAPO envisions an Ontario where ALL seniors are **free from ageism and abuse**, where *human rights are advanced, protected and respected*.

EAPO is mandated to support the implementation of Ontario's Strategy to Combat Elder Abuse.

Funded by the Ontario Government, under the
Ministry for Seniors and Accessibility (MSAA)

Canadian Network For the Prevention of Elder Abuse

MISSION

The CNPEA works to improve awareness, supports, and capacity to develop a national coordinated approach to elder abuse and neglect. We promote the rights of seniors through knowledge mobilization, collaboration, policy reform and education.

VISION

All seniors in Canada have access to the services and supports necessary to lead a quality life in their communities and live without fear of violence or neglect.

Presenter

Claudiu Popa
Founder,
KnowledgeFlow
Cybersafety Foundation

Claudiu is a recognized leader in the cybersecurity field. He holds several top-tier certifications, including CISSP (Certified Information Systems Security Professional), CIPP (Certified Information Privacy Professional), PMP (Project Management Professional), CISA (Certified Information Systems Auditor), and CRISC (Certified in Risk and Information Systems Control).

With his extensive experience and credentials, Claudiu has dedicated his career to advancing cybersecurity education and promoting online safety for individuals, organizations, and communities.

Presenter

Debra is deeply passionate about protecting Canadians from digital threats. She combines strategic leadership with a personal commitment to ensuring that vulnerable populations, particularly seniors, are equipped with the knowledge and tools they need to stay safe online.

Debra's dedication drives the organization's mission to create accessible, effective cybersafety resources that empower individuals and communities to navigate the digital world securely and confidently.

Debra Popa,
Executive Director

Cyber Security Tips for Seniors

Cyber security is the set of practices that you have in place to protect your devices and personal and financial information. Cyber criminals target individuals to gain information that they can exploit to steal money from you.

1 Create unique, strong passwords and passwords

- Use a password a series of at least four words and 7 characters in length.
- To use complex passwords with a mix of uppercase and lowercase letters, numbers and symbols.
- Use a different password for every account.

2 Limit sharing of sensitive personal information online

Be careful what personal data you share online. Don't provide your birthdate, ID# or any personal or financial information.

3 Install software updates and patches

Install software updates as soon as they're available for all of your connected devices.

4 Protect your devices

Lock and clear and anti-malware software on all your connected devices and keep the software up to date.

5 Phishing. Don't take the bait

Phishing is one of the most common tactics that cyber criminals use to steal your information. Donning messages are often sent to emails, text messages (known as smishing) or phone calls.

Be careful: Phishing messages often pressure or threaten you to respond quickly.
Links: Don't open any links or attachments you're unsure of.
Before any messages: Mail claims too good to be true, it's missing a cented you don't see it.

Online Dating & Romance Scams Tips for Seniors

Delugan/APA

Online dating sites use dating and social networking sites to connect their users. They create accounts using stolen photos and their stories that often suggest they work in the military, overseas or in business. They promise to get visitors' trust and eventually their money.

What are the signs?

Warning of:

- Profiles that seem too perfect.
- Someone you haven't met in person promises their love to you.
- People who claim to be wealthy, but need to borrow money.
- Any attempts to meet in person get cancelled.
- A person who threatens you from talking about them to friends & family.

What to do:

- Slow down. Don't send money or credit with someone you just met online and have never seen before in person.
- Talk to a trusted friend or family member for their opinion. A friend or family member can give you valuable objective feedback.
- Ask them for a recent photo or do a video call. If the person is real, they should be open to sharing their real photo with you or to video call.
- Don't share any sensitive personal material that can be used to blackmail you.
- Be very careful about how much personal information you share on social nets and dating sites.
